Japheth Oluwatimileyin Jerry

Frontend Engineer | React & React Native • Federal Capital Territory, Nigeria · Remote

princejaphethjj@gmail.com • +234 803 476 6310 • Portfolio • LinkedIn

Frontend engineer building responsive web applications and cross-platform mobile interfaces with React, Next.js, React Native, and TypeScript. Combines UI/UX design experience with API integration, reusable components, and state management. Selected work spans analytics dashboards, developer tooling, and polished client websites.

PROFESSIONAL EXPERIENCE

Lead Frontend Developer @ Popkup 2025 – 2026 CONTRACT

- Led frontend development for Popkup's commerce platform and PicaTip, a Popkup product, using Next.js and TypeScript.
- Built storefront, checkout, and admin interfaces; integrated payment and shipping APIs for the commerce platform.

Frontend Developer @ Witty Jul – Oct 2026 CONTRACT

- Built Witty's public-facing platform for its trade and cross-border payments business.
- Contributed frontend updates to existing trade and partner platforms at trade.wittytech.io and partners.wittytech.io.

Web Developer & UI/UX Designer @ Web Launch Guys 2020 – Present PART-TIME

- Developed responsive React and Next.js websites, translating UI/UX designs and prototypes into reusable interface components.
- Integrated REST and GraphQL services and worked on website performance, SEO, and cross-device layouts.

Full-Stack Engineer @ Aquila Cyber 2024 – Present PART-TIME

- Built React interfaces and REST APIs using Node.js and PHP, working with MongoDB and MySQL data layers.
- Contributed to application security and CI/CD workflows across full-stack projects.

TECHNICAL SKILLS

Frontend
React
Next.js
Angular / Svelte
TypeScript / JavaScript
HTML5 / CSS3
Tailwind CSS
Responsive UI

State & Integration
Redux Toolkit
Zustand
REST APIs
WebSockets
TanStack Router

Mobile & Design
React Native
Flutter / Swift
Figma
UI/UX Design
Reusable Components

Backend & Delivery
Node.js
PHP / Laravel
MongoDB / MySQL
Supabase
Git / GitHub
CI/CD
Code Review

KEY PROJECTS

PicaTip — a Popkup product — Frontend Development Live site
Tech: Next.js, React, TypeScript, Redux Toolkit, Tailwind CSS, Framer Motion
Built responsive analytics dashboards, prediction workflows, and live-match interfaces. Implemented typed Redux state management, authentication and subscription screens, and reusable UI components.

Periderm CLI & Dashboard — Full-Stack Development Live site
Tech: React, TypeScript, Vite, TanStack Router, Node.js, Supabase
Built a pre-launch scanning tool and companion web dashboard for reviewing scan histories and application issues. Connected developer tooling to a React interface for tracking project health and actionable findings.

EDUCATION

Lincoln University College
BSc in Cybersecurity and Networking
2025 – 2027 (Expected)

Lincoln University College, Nigeria
Diploma in Computer Software Engineering
Software Architecture & Cloud Computing
2022 – 2025

CERTIFICATIONS

Associate Degree in Computer Software Engineering
2025 Lincoln University College

Professional Scrum Master I (PSM I)
2023 Completed

Print Xpert – Professional Graphic Designer
2021 Completed

Professional references available upon request
